

Habitat Farms
Collective presents:
**A PLANT
COMMUNITY
WALK**
with
Dara Saville

Join herbalist, author, and educator Dara Saville of Albuquerque Herbalism for a free plant walk at the Common Edge Habitat Field. We'll take an easy stroll around the grounds to explore the plants thriving in this essential urban refuge. Along the way, we'll discuss plant identification, edible and medicinal uses, ethical harvesting, and the ways that plants create complex communities of healing for themselves, the Land, and people.

Friday, May 15th, 2026
4 pm to 6 pm
